

1 2 kw solar inverter factory in Albania

Overview

How many photovoltaic plants are there in Albania?

The two remaining projects are Premium Solar Park1 by Premium Energy, of 30 MW, and Sharp Solar Park1 by Sharp Energy, with a planned capacity of 20 MW. The report adds there are currently 12 photovoltaic plants in operation in Albania with a combined capacity of 23 MW, which sold electricity for EUR 71.2 per MWh to the government last year.

How much solar power does Albania have?

The International Renewable Energy Agency calculated that solar power capacity in Albania rose by 5 MW last year, to 22 MW. State-owned power utility KESH recently completed its 5.1 MW solar power plant at a hydropower dam. A 1 MW floating photovoltaic system, which sunk last spring just days after commissioning, has just been repaired.

Will a 20 MW solar project be built in Albania?

The Albanian government said last week that unspecified developers have agreed to build two 20 MW solar projects in the nation's Korça region. The authorities also said that renewables operators will now have to pay fees for grid imbalances. Albanian utility KESH has built a 5.1 MW ground-mounted solar park at its hydropower plant in Vau i Dejës.

Could solar power reduce Albania's reliance on energy imports?

Albanian researchers say that solar could be key to reducing Albania's reliance on energy imports, but the nation will need to invest in grid infrastructure, streamline laws, and enhance access to funding to support deployment.
