

100kWh Solar Container for Power Station

Overview

What is a 100kW Solar System?

A 100kW solar system is a large capacity commercial solar system that is best suitable for large manufacturing units or businesses with high energy usage. Similar to other capacities solar systems, this 100kW solar system includes solar panels, an on-grid solar inverter, and other solar accessories.

What is a 100kW solar package?

Our 100kW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in a massive configuration and a serious 100kW solar inverter.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
