

125W solar panel

Overview

What is ecoflow 125W bifacial solar panel?

The EcoFlow 125W Bifacial Solar Panel features an innovative modular design, delivering 125W power, 50V, and 3A current output, designed for seamless expansion within its safe range, it offers exceptional adaptability with various EcoFlow portable power stations. With N-Type TOPCon technology, achieve up to 25% conversion efficiency.

What is a 150W 12V solar panel?

The 150W 12V Solar Panel from Camec uses mono-crystalline technology to generate maximum current from toughened-glass covered panels. More info.

How much does a 500W solar panel weigh?

The panel is IP68-rated with waterproof XT60-W connector, ensuring robust, weather-resistant performance. The 500W setup weighs only 37 lbs (16.8 kg) . The modular design enables flexible power configuration.

What is a bifacial solar panel?

The EcoFlow 125W bifacial modular solar panel offers 25% efficiency, plug-and-play expansion, and reliable performance in various weather conditions, making it ideal for long-term home and outdoor use. Max parallel connection of 8 panels (1000W). With a 30-year lifespan, this durable, low-maintenance solar panel is ideal for home use.
