

# **12V solar container lithium battery dedicated inverter**

## Overview

---

Which battery is suitable for residential energy storage?

12V/24V/48V/51.2V wall mounted LiFePO4 battery, is designed specifically for residential energy storage, with a stylish and simple appearance, supporting wall mounted installation. Residential energy storage system with modular high-voltage battery, is suitable for residential energy storage.

Which solar inverter should I buy?

8% Sale! Looking for a solar inverter with battery backup and long life?

Sun Li-ON 1000 might just be the perfect fit for your needs. You can get started with a single 340W Solar Panel or 540W solar panel and connect the lithium integrated inverter to enjoy reliable back up and more savings.

What is a container energy storage system?

The container energy storage system helps to use and manage energy more effectively, reduce electricity bills, and can be applied in various scenarios such as peak valley arbitrage for power users, frequency regulation and peak shaving for power grids, improving new energy consumption, and improving power supply stability for power grids.

What is a mini inverter?

This mini inverter is compact, wall mountable and zero maintenance along with longer battery lifecycle . Sun LiON is a 12V system with 50Ah in-built LifePo4 Lithium-ion battery that supports both 12V and 24V solar panels.
