

200m wind and solar energy storage power station

Overview

What is Guangdong's new energy storage power station?

Guangdong has launched construction on its first new-type energy storage power station of 200 MW / 400 MWh capacity connected to an offshore wind grid node in Xuwen, Zhanjiang.

What is the largest grid-forming energy storage station in China?

This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong Composite Photovoltaic Base Project. This energy storage station is one of the first batch of projects supporting the 100 GW large-scale wind and photovoltaic bases nationwide.

What is Ningxia power's energy storage station?

On March 31, the second phase of the 100 MW/200 MWh energy storage station, a supporting project of the Ningxia Power's East Ningxia Composite Photovoltaic Base Project under CHN Energy, was successfully connected to the grid. This marks the completion and operation of the largest grid-forming energy storage station in China.

Where is Guangdong's first energy storage power station located?

Source: Southern Daily On October 18, construction officially began on the 200 MW / 400 MWh Independent Shared Energy Storage Power Station Project in Xuwen County, Zhanjiang City, Guangdong Province. This marks Guangdong's first new-type energy storage station connected to a large-scale offshore wind power grid node.
