

25kW Photovoltaic Folding Container for Airports

Overview

What is a solar PV container?

The Solar PV container is a mobile, plug-and-play solar energy solution. It's designed to be foldable, integrated for fast deployment anywhere. Just lay the track, pull it gently, and the solar panels will be deployed. Start working efficiently, keeping up continuous conversion of solar energy to electricity.

What is Huijue's folding solar PV container?

Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a capacity for mobility to provide green energy all over the world. The Solar PV container is a mobile, plug-and-play solar energy solution.

What is a folding solar photovoltaic container?

The folding solar photovoltaic container developed by the Huijue Group represents a pioneering, flexible, and effective solution in energy provision. Besides meeting the demand of energy in different scenarios, this container will enable optimized utilization of resources by introducing module design and a powerful electricity generation system.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.
