

# 2gw solar inverter project

## Overview

---

Which is the world's largest single-site solar PV plant?

Masdar claimed that this project is the world's largest single-site solar PV plant. After adding this project to the UAE's solar portfolio, the country's solar power production capacity will increase to 3.2GW.

Who owns 2GW Al Dhafra solar PV project in Abu Dhabi?

Image: Masdar UAE state-owned renewable energy developer Masdar has inaugurated the 2GW Al Dhafra Solar solar PV project in Abu Dhabi.

How will a solar plant work?

Moreover, it will use a solar tracker system and inverters, capable of operating in high temperatures. Through this, the solar plant will maximize efficiency and produce amicable amount of power during peak solar hours. The project will be delivered in two phases and is expected to be fully operational by mid-2029.

How many solar modules does Emirates water & electricity company have?

Encompassing about four million bi-facial solar modules, the project will supply power to the procurer of the project, Emirates Water and Electricity Company (EWEC), as both companies signed a power purchase agreement (PPA) in 2020. Masdar claimed that this project is the world's largest single-site solar PV plant.
