

300kw solar container battery

Overview

How big is a 300kW solar power system?

A 300kW system using 370W panels will require about 1,422.6 square meters of roof to be installed. Each 370W panel measures about 1.75m x 1m. 300kW solar power systems are mostly suitable for Businesses with very high energy needs. This size of solar power system is classed as "Large Scale".

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
