

345W solar panel price

Overview

Are 345 watt solar panels a good choice?

Since there are not a lot of appliances there, even one 345 W solar panel can be a huge help in your journeys. In our store you can find a variety of 345 watt solar panels for sale. Those are all monocrystalline modules: the most widespread type of photovoltaics today.

How much does a 340W solar panel cost?

Panels from a Korean company come at fairly comfortable prices around \$0.7-\$0.8 per watt. This means that a 340W panel can cost around \$250. As always, Chinese competitors, like LONGi, Trina or JA Solar, offer cheaper products. At the same time there are enough brands with much higher prices: Panasonic, REC, LG.

What factors affect the 345W solar panel price?

The brand is what makes the biggest impact on the 345W solar panel price. Chinese panels are the cheapest, but European ones are higher in quality. American panels occupy the middle of the price range and come with fair efficiency rates and good warranties.

What is a mission 345 watt solar panel?

The module provides a high energy yield at low NOCT = 44.43°C (±2°C). Find more information in Mission Solar 345 spec sheet. Mission 345-Watt Solar Panel receives multiple quality checks throughout the manufacturing process and is subject to stringent quality and reliability testing.
