

370 solar panel size

Overview

What is the Solaria PowerXT 370R-PD solar panel?

The Solaria PowerXT 370R-PD solar panel is a 370 Watt power rated 60 cell PV module, making it one of the highest power rated solar panels available in the industry. It is ideal for residential solar systems due to its high efficiency, which reduces the number of solar panels, installation time, and balance of system components required for a project.

What is a Grape Solar 370 watt solar panel?

The Grape Solar 370-Watt High Efficiency Monocrystalline PV Solar Panels use high efficiency solar cells made from quality silicon material for high module conversion efficiency, long-term output stability and reliability. Virtually maintenance free. High transmittance, low iron tempered glass for durability and enhanced impact resistance.

What is the cost of a 370 watt solar panel?

The price of a 370w solar panel varies by brand. Some premium-class PV modules can cost over \$400, such as those from Panasonic and Solaria. A1SolarStore offers a variety of 370 watt solar panels for sale from different brands.

What are 370w solar panels suitable for?

A 370w solar panel is a great, high-output choice for residential projects – and with powerful panels you need less of them which means less space and less money required. A 370 W panel can also be used for powering your RV or boat. Usually mobile solar installations are relatively small in capacity.
