

3w solar panel solar container battery capacity 3ah

Overview

What is a 6V 3W solar panel?

This 6V 3W solar panel is built with the latest most efficient monocrystalline solar cell. It is laminated by tempered glass, which is durable and robust. This 3w solar panel is great for charging your 3.7-volt DC batteries and ideal for use in off grid applications such as solar lights, mosquito killer, DIY educational kits etc.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.
