

60kWh Off-Grid Solar Container for Field Research

Overview

Where is harvested energy stored?

Harvested energy is stored in Lithium LiFePO4 battery banks with it's own programmed BMS (Battery Management System).

What is a solar power generator?

A silent, worry-free alternative to loud and dirty diesel generators to meet high off-grid power needs using solar power generation – with optional wind turbine (s) for augmented power generation day and night. Harvested power stored in a choice of batteries including Lithium Ion, EV Second Life Batteries, and deep-cycle AGM batteries.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.
