

# Accra Energy Storage Transformation Project Latest

## Overview

---

What does the new government mean for Ghana's energy sector?

**New Ministry of Energy & Green Transition** The new government led by H.E. John Dramani Mahama has signaled a commitment to greening the national grid by expanding the scope of the Energy Ministry to include the Green Transition in its portfolio. This marks an important policy shift towards greening Ghana's energy sector.

Could wind power be a viable energy source for Ghana?

Wind energy also holds untapped potential, particularly along Ghana's coastal regions, where wind speeds are favorable for electricity generation. Integrating wind power, solar, and battery storage solutions to complement the thermal plants could provide a stable and reliable energy supply for the country.

How many net-metered rooftop solar PV systems will be installed in Ghana?

In addition, 12,000 net-metered rooftop solar PV systems will be installed nationwide to support Ghana's transition toward a greener energy mix. Hon. Jinapor acknowledged the resilience of the people in remote communities without electricity who have long awaited connection to the national grid.
