

American solar Glass Group

Overview

Where is NSG glass made?

NSG Group is pleased to announce the warm up of a newly converted TCO (transparent conductive oxide) facility in the United States. An existing float line at the Rossford, Ohio factory of Pilkington North America, Inc., a member of NSG Group, has been converted to begin producing TCO glass from March 2025.

When will TCO glass be available for solar panels?

In the plan, a float line at the Pilkington North America, Inc. Rossford, Ohio location, a member of NSG Group, will install online coating capacity and will start shipping TCO glass for solar panel manufacture in the first quarter of calendar year 2025.

Who is NSG glass & glazing?

The Ceremonial Furnace Lighting on 14 January NSG Group is the world's leading supplier of glass and glazing systems in the business areas of Architectural, Automotive, and Creative Technology. Architectural manufactures and supplies architectural glass as well as glass for the solar energy and other sectors.

Where is NSG Group's solar plant located?

NSG Group's solar plant is located in Rossford, Ohio. The 1.4 MW plant is built on a repurposed brownfield site and is powered by more than 4,300 First Solar thin-film solar panels featuring NSG Group's solar energy glass products.
