

Applicable tax rate for energy storage power stations

Overview

Is a stand-alone energy storage a qualified person?

Notably, no NAICS code describes stand-alone energy storage, and there is no published guidance on whether a stand-alone BESS could be a qualified person. Stand-alone BESS is subject to property tax. Texas offers an incentive program referred to as chapter 312 to attract new capital investment that has benefitted renewable development.

When does the energy efficient commercial buildings deduction end?

The energy efficient commercial buildings deduction, as well as the new energy efficient home credit, terminate after June 30, 2026. Under the law prior to OB3, section 45Y allows a PTC for electricity produced by the taxpayer at a qualified facility and sold to an unrelated person during the tax year.

What is a battery energy storage system?

Battery energy storage systems (BESS) are often referred to as the game changer when it comes to delivering clean energy. Since 2005, the emergence of renewable energy resources like solar and wind has increased the intermittency of energy on the grid and the need for a resource to stabilize generation.

When will wind and solar energy property be removed from the property class?

This provision is effective for property the construction of which begins after December 31, 2024. The removal of wind and solar energy property from the statutory five-year property class will cause taxpayers engaged in such activities to need to determine which asset class will otherwise apply to such assets.
