

Are there any tariffs on Canadian energy storage cabinet exports

Overview

Are Canada's counter tariffs affecting energy trade?

Similarly, Canada's counter tariffs have generally avoided most energy equipment imports. On March 7, 2025, President Trump first implemented a carve out such that all CUSMA-compliant energy trade will not be effected by the tariffs.

How have US tariffs impacted Canada's energy exports?

To date, U.S. tariffs have largely circumvented Canada's energy exports, including oil, gas, uranium and electricity. Similarly, Canada's counter tariffs have generally avoided most energy equipment imports.

Did Canada impose tariffs on fresh produce?

fresh fruit, vegetables, and nuts. On March 12, 2025, the U.S. imposed tariffs of 25% on Canadian steel and aluminum products. Canada immediately applied retaliatory tariffs on nearly \$30 billion worth of U.S. exports. This round of tariffs did not include any fresh produce exports.

Does Canada have a tariff on crude oil?

More recently, crude oil trade volumes across the U.S.-Canada border have decreased. As of March 6, 2025, Canada's energy exports to the United States are subject to a 10% tariff, although some crude oil volumes are potentially exempt from tariffs if they qualify for the United States-Mexico-Canada Agreement preference.
