

# Asia Energy Storage Power Generation Project

## Overview

---

What is the largest energy storage order in Southeast Asia?

Citicore's 1.5 GWh order is the largest one in Southeast Asia, while Fidra Energy's 4.4 GWh order breaks the European record. Chinese companies such as Huawei, Envision Energy, CORNEX and Sunwoda have each secured major energy storage contracts in the Philippines, South Africa, Italy and Australia.

Does China's energy storage capacity exceed pumped storage capacity?

China's installed capacity of new-type energy storage exceeded that of pumped storage for the first time at the end of 2024, according to the recent data release of China Energy Storage Alliance (CNESA).

Does China's largest offshore photovoltaic-hydrogen-storage project in Rudong generate electricity?

Also in this month, China's largest offshore photovoltaic-hydrogen-storage project in Rudong began generating electricity. In this project, solar power is used for seawater electrolysis to produce hydrogen, which is utilized for electricity generation during peak demand. -- Sodium-ion.

How is energy stored in China?

In eastern Chinese city of Changzhou, air compressed to over 120 atmospheres in salt caverns 1,000 meters underground is used for energy storage. The heat generated is transferred to thermal oil, and then the electricity is regenerated on command.
