

Asuncion solar Tile Supplier

Overview

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

Are solar tiles a good investment?

Solar tiles perfectly combine architecture, aesthetics and photovoltaic technology, making the entire roof look beautiful and elegant, with a strong sense of technology, and enhancing the value of the property itself.
