

Avalo solar container outdoor power anti-dumping duty

Overview

What are the anti-dumping and countervailing duties on solar panels?

The countervailing and anti-dumping duties are in response to a petition that a group of seven solar panel manufacturers called the American Alliance for Solar Manufacturing Trade Committee filed with the US government in April 2024.

Are crystalline solar cells affected by US anti-dumping duties?

The US Commerce Department set final countervailing and anti-dumping duty rates on Monday for crystalline solar cells and modules imported from four southeast Asian countries. Cells and modules from Vietnam, Malaysia, Thailand and Cambodia are affected. Importers have already been posting cash deposits for the duties since last fall.

Is aluminum framing affected by trade duties on imported solar modules?

Aluminum framing on imported solar modules is not affected by these trade duties. The federal government's look into the current state of aluminum imports followed an existing case regarding aluminum extrusion imports from China, which was initiated in 2011.

Are solar racking extruded aluminum products affected by import duties?

Imported solar racking, including solar tracker assemblies, were among the extruded aluminum products affected by these potential duties. The ITC is expected to publish a report on its determinations by Dec. 10. Petitioners are able to appeal the ITC's decisions on cases related to imported goods.
