

Azerbaijan Solar Air Conditioning

Overview

Summary: Azerbaijan's city of Ganja is pioneering solar air conditioning systems to combat extreme heat while reducing energy costs. Does Azerbaijan have a solar project?

Azerbaijan's Ministry of Energy has signed three investment agreements for three separate solar projects involving cooperation from Chinese companies. The first agreement is for the evaluation, development and implementation of a 160 MW solar plant.

How will Chinese solar projects work in Azerbaijan?

They will be implemented by Chinese companies working in collaboration with Azerbaijan-based developers. Azerbaijan's Ministry of Energy has signed three investment agreements for three separate solar projects involving cooperation from Chinese companies.

How can Azerbaijan improve energy security?

Diversifying and improving the energy capacity of the country to ensure energy security. Azerbaijan has significant untapped renewable energy potential, as it is a relatively sunny and windy country, and it also has sizeable hydro, biomass and geothermal resources.

How much solar power does Azerbaijan have?

Azerbaijan's cumulative solar capacity stood at 293 MW by the end of 2024, according to figures from the International Renewable Energy Agency (IRENA). Work on a 240 MW project in southwestern Azerbaijan began last November, the same month funding was secured for two solar projects in the southeast of the country that will total 760 MW.
