

BAIC New Energy Battery Pack

Overview

What is BAIC's new energy vehicle strategy?

BAIC has announced a new energy vehicle strategy that includes a further investment of 100 billion yuan (ca \$15 billion). The strategy starts with the halt of sales of ICE vehicles in Beijing in 2020. BAIC has detached its EV strategy from fossil-based vehicles by not producing any hybrid models.

What is new in BAIC BJEV EC Series?

Aiming at A00 class pure electric vehicle market, BAIC BJEV has carried out new positive development of EC series models. A new look, a new structure and a new system of battery, motor and electric control have been developed. A new chassis and vehicle platform adapted to the characteristics of pure electric drive has been built.

What is BAIC Group?

BAIC Group is a backbone enterprise in China's automobile industry, headquartered in Beijing.

How BAIC BJEV has overcome the problems in battery swap technology?

BAIC BJEV, together with its partner Shanghai Electric Bus, have overcome the problems in battery swap technology, such as vehicle manufacturing consistency, fault tolerance of battery assembly, and safety and reliability of connection.

BAIC New Energy Battery Pack

[Let's talk about the battery system of BAIC CTP materials](#)

Today's article will sort out BAIC's CTP materials. This is the production of the main models in August (2,500 units), and BAIC New Energy is currently following this (accounting for more ...
