

BESS solar container outdoor power in Manchester UK

Overview

Could a £750m battery energy storage scheme be the world's largest?

Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester. Carlton Power, the independent energy-infrastructure developer behind the venture, said the 1GW facility at the Trafford Low Carbon Energy Park would be the world's largest battery-storage facility.

Who are Bess project delivery services?

We provide complete project delivery services for BESS schemes across the UK, aligned with the technical, regulatory and programme requirements of today's energy sector. We're experienced contractors delivering battery energy storage systems (BESS) for some of the largest energy organisations in the UK.

Will a £750m battery energy storage scheme help Trafford & Greater Manchester?

The council's leader, Tom Ross, said that the battery storage and green-hydrogen schemes would put Trafford and Greater Manchester "at the forefront of the UK's energy transition". Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester.

Is Coalburn a good investment in UK energy storage?

The 500MW/1,000MWh Coalburn project in Scotland, UK, currently under construction. Image: CIP. Despite a 12% year-on-year fall in the capacity of newly submitted planning applications in 2024, there is still a strong interest in the UK energy storage market as a whole.
