

Battery energy storage production plant in Osaka Japan

Overview

Utility Osaka Gas and developer Sonnedix are installing what is claimed to be the largest battery storage facility co-located with renewable energy generation in Japan so far. Where are Panasonic Batteries made?

Osaka, Japan, November 20, 2023 - Panasonic Energy Co., Ltd., a Panasonic Group Company, announced that the company completed a project to relocate its dry battery factory and that the Nishikinohama Factory (Kaizuka City, Osaka) today launched full-scale production of AA, AAA, C, and D alkaline batteries.

Where are Japanese batteries made?

In 2020, it became the first Japanese company to ship a cumulative total of 200 billion dry batteries worldwide. With production at the Moriguchi Factory, which had met domestic demand for over 90 years, terminated, a new factory has been set up at the Nishikinohama Industrial Park in Kaizuka City, Osaka Prefecture.

What is Osaka battery base?

At Osaka Battery Base we strive to ensure our customers get the best after sales service with their purchased vehicle battery. Thanks for submitting! Batteries delivered in Cape Town. Quality New & Second Hand Batteries. Gel, Deep Cycle & Solar. Wholesale available. Osaka Battery Base offers quality batteries at affordable prices.

Who is Panasonic energy?

Panasonic Energy Co., Ltd., established in April 2022 as part of the Panasonic Group's switch to an operating company system, provides innovative battery technology-based products and solutions globally.
