

# **Belgium lithium energy storage power supply procurement**

## Overview

---

Why is Belgium a good place to invest in a battery?

Other factors that make Belgium an appealing location for battery investments are the exemption of TSO grid fees and high revenues from balancing market (mainly FCR and aFRR),” Simon De Clercq, senior research associate at Aurora Energy Research, told ESS News.

How many MW of battery energy storage system Engie reaches in Europe?

With this new project, ENGIE reaches 500 MW of BESS capacity in Europe, either installed, under construction or at an advanced stage of development. On 31 October 2024, Belgian grid operator Elia announced the result of the country’s 4th CRM auction and the selection of ENGIE’s Battery Energy Storage System (BESS) project in Kallo.

Is crm'supercharging' a battery market in Belgium?

“We are indeed seeing that the CRM is ‘supercharging’ an already interesting battery market in Belgium.

What funding is available for R&I projects in Belgium?

Belgium: Energy Transition Fund. Support for R&I projects for energy. In this context, several publicly funded R&I projects which also include storage, are being performed by Belgian research centres. The funding for energy related R&I projects in 2022 amounts to 25 million €.
