

Belize solar container outdoor power Monopoly Number

Overview

Does Belize have an electricity monopoly?

Belize Electricity Limited (BEL) functions as a legal monopoly for electricity generation, transmission, distribution, and supply in Belize. It was granted a 15-year license in 2000, with an automatic 10-year recurring license beginning in 2015.

Why has Belize invested in energy?

Belize has invested in energy for the purpose of strengthening and stabilizing its energy sector over the last 20 years. The country has made investments in hydropower, biomass, solar, and liquified petroleum gas (LPG) to ensure energy security.

Does Belize use solar power?

Belize uses solar power on a smaller scale, with the Government having installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid. The Government of Belize, along with Belize Electricity Limited (BEL), intends to launch a pilot project introducing electric vehicles.

Why is Belize not connected to the National Grid?

Significant portions of Belize, including tourist hotspots such as the cayes and eco-tourism lodges in the rainforest, are not connected to the national grid. Belize remains a net-importer of electricity from Mexico, making energy imports expensive and unpredictable.
