

Bern solar power generation 15kw off-solar container grid inverter

Overview

● 15kW off-grid PV inverter for sale, 192V battery voltage, with pure sine wave. ● Unique dynamic current loop control technology. ● Extremely strong load-carrying capacity, adaptable to capacitive, resistive, inductive, and mixed loads. ● Strong overload capacity and impact resistance, capable of starting at full load. ● Protection functions against input overvoltage/undervoltage, output overvoltage/undervoltage, overtemperature, overload, and short circuit. What is a 15kW sine pure wave power inverter?

15kW sine pure wave power inverter is a 3 phase off grid inverter with no battery for the solar system, converts the DC power to AC power, it is useful for areas without electricity, vehicles, ships, solar energy and other renewable energy systems, etc. Two kinds of start modes: Step-down voltage start and variable frequency start.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.
