

# **British wind and solar energy storage power station project**

## Overview

---

Who owns the UK's largest co-located solar & battery storage project?

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country. Langford Solar Farm in Devon. (credit: RWE).

How many MW of solar & battery storage are there in the UK?

Combined, these projects represent 577 MW of solar capacity along with 105 MW of co-located battery storage. German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located solar and battery storage project in the country.

How many solar projects does RWE have in the UK?

RWE has 11 solar projects under construction in the UK and earlier this month marked the energisation of its first UK solar site, Langford. Together, these construction and operational projects total 577 MW (AC) alongside 105 MW (AC) of co-located battery storage. Pictures for media use (credit: RWE) are available at the RWE Media Centre.

What are the UK's largest energy storage projects?

Bramley BESS (Hampshire): 100 MW / 331 MWh, currently the UK's largest energy storage project. Fidra Energy (Thorpe Marsh): A 1.4 GW / 3.1 GWh BESS being built on a former coal site. Copenhagen Infrastructure Partners (CIP): Two 500 MW / 3 GWh systems planned in Scotland.

## British wind and solar energy storage power station project
