Overview

How will Sweco contribute to Belgium's energy grid?

The park will make a significant contribution to the energy grid by providing stored renewable energy during periods of low solar and wind energy production — thereby reducing Belgium's reliance on gas power plants. Sweco will deliver the design of the civil engineering and electrical engineering works of the battery energy storage system (BESS).

Will Sweco design a Battery Park for giga storage Belgium?

Sweco will design one of continental Europe's largest battery parks, Green Turtle, for the energy storage company GIGA Storage Belgium. This facility will have a storage capacity of 2,800 MWh of electricity.

Who is Giga storage Belgium?

Free use when crediting photographer Tobias Regell. GIGA Storage Belgium is an energy company that develops and deploys large-scale energy storage projects within the Belgian energy network. The aim is to play a key role in securing Europe's future electricity supply, with the ambition to achieve 3 GW of battery storage in Belgium before 2030.

How many homes can a solarfold Container Supply?

The on-grid version of the solarfold container is connected directly to the public power grid and can supply up to 40 single-family homes with the energy produced (energy requirement of 3,500 kW/year/single-family house). The solarfold on-grid container can also be expanded with various storage solutions.
