

Can flow batteries be shipped by sea

Overview

Can I ship batteries by air or sea?

The rules for shipping batteries by air or sea are becoming stricter, vary depending on individual carriers and are subject to change. We, therefore, recommend you check with your airline, courier or shipping company before you send them.

Can lithium batteries be shipped?

Not all shipping companies can ship lithium batteries. So first and foremost, when shipping lithium batteries by road, sea, rail or air, you should choose a reputable carrier that has guidelines in place for shipping these items, together with trained personnel who understand how lithium batteries work and how to handle them safely.

Can I ship batteries overseas?

When you are shipping your personal effects and household goods overseas it is quite likely that you'll also need to send some items with batteries. This can raise quite a few questions as there can be restrictions on shipping batteries overseas, especially by air, due to their hazardous nature.

Can I ship batteries in a shared shipping container?

Similar guidelines apply no matter whether you're shipping batteries within Europe or Worldwide. The following regulations apply when you are relocating possessions, including batteries, in a shipping container. This also includes a shared shipping container - often referred to as groupage.
