

Canberra curtain wall solar project

Overview

Are solar panels a Bill Buster for Canberra's social housing tenants?

Solar panels and batteries will combine to be a bill buster for Canberra's social housing tenants. Photo: Huglo Solar. Up to 7500 Canberra households will benefit from lower power bills with the help of a \$12.9 million Commonwealth program to install rooftop solar and batteries in social housing properties.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

How many Canberra households have benefited from the sustainable household scheme?

Over 20,000 Canberra households have now applied to participate in the Scheme to make their homes more energy efficient. The Sustainable Household Scheme has approved \$200 million in loans and supported the installation of almost 17,000 sustainable upgrades since it commenced in July 2021.

How can Canberra save money on energy bills?

This has saved households money on their energy bills and reduced the ACT's carbon footprint. Through the Scheme, Canberrans have access to zero-interest loans and rebates for a range of energy-saving upgrades.
