

Cape Verde Wind Energy Storage Power Station

Overview

Where is the largest power station in Cape Verde?

The largest power station in Cape Verde is located in the City of Praia with an installed capacity of 31 MW.

What's happening in Cabo Verde?

The Cabeólica Phase II Expansion Project in Cabo Verde has received a €19.6 million boost from the African Development Bank Group, supporting the country's groundbreaking efforts to combine wind power and battery energy storage at scale.

Will Cabo Verde produce 50% of its electricity by 2030?

The project supports Cabo Verde's objective of producing 50% of its electricity from renewable sources by 2030, in line with its commitments under the terms of its Paris Agreement's nationally determined contribution. Sign up for our daily news round-up!.

How does Cabo Verde's energy system work?

Cabo Verde's electricity system largely depends on imported fossil fuels, and these enhancements are anticipated to lower system costs and improve energy security.
