

China solar powered generator in Argentina

Overview

Does Argentina have a solar park?

[PowerChina Argentina/Handout via Xinhua] BUENOS AIRES -- Argentina's Chinese-built and financed Cauchari Solar Park, the largest of its kind in Latin America, officially launched commercial operations over the weekend, injecting power into the national power grid.

What is the largest photovoltaic project in South America?

The Cauchari Solar Park is the highest-altitude and largest-capacity photovoltaic project in South America. It is also the largest photovoltaic project completed by POWERCHINA in the Argentine market. Located in the heartland of the Andes at an altitude of over 4,000 meters, the project has an installed capacity of 315 megawatts.

How many jobs have been created during the construction of powerchina Argentina?

According to Tu Shuiping, general manager of PowerChina Argentina, about 1,500 jobs have been created during the construction of the park, which, once completed, will continue to provide employment opportunities in operation and maintenance, as well as to spur the development of the mining and smelting industries.

How do I find a reputable solar generator supplier in China?

Discover the perfect addition to your Solar Energy System with our Solar Generator. Identifying reputable suppliers in China involves reviewing company certifications, customer reviews, and product specifications. Look for suppliers that offer warranty coverage, reliable customer support, and certifications from industry standards authorities.
