

# **Construction of new energy power generation base stations**

## Overview

---

The reporter learned that the planning and construction of many new energy bases, including large-scale wind power and photovoltaic bases, are being accelerated, and investment in UHV, pumped storage and other fields has increased, and a number of major projects are planned to start in the second half of the year. How will China's new power base work?

All projects at the base are scheduled to be put into operation within China's 14th Five-Year Plan (2021-25) period. Once operational, the base is expected to export 24 billion kWh of power annually to East China's Shandong Province through the ultra-high-voltage power transmission line.

Where is the second phase of China's nuclear power plant being built?

The second phase kicked off construction on Tuesday in Northwest China's Ningxia Hui autonomous region, said its operator China Energy Investment Corp, or China Energy.

What is the largest grid-forming energy storage station in China?

This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong Composite Photovoltaic Base Project. This energy storage station is one of the first batch of projects supporting the 100 GW large-scale wind and photovoltaic bases nationwide.

How complex is the construction of the National Power System (NPS)?

The construction of the NPS is a highly complex project that requires breaking through the technical bottlenecks in various aspects of power generation, transmission, storage, distribution, and consumption. This study analyzes the development direction, technical issues, and key construction tasks of the NPS.

## Construction of new energy power generation base stations

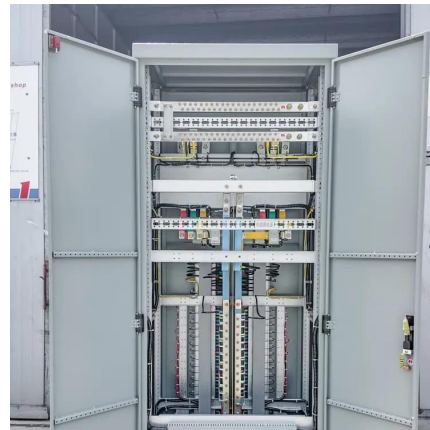

### [CHINA'S ACCELERATING GROWTH IN NEW TYPE ...](#)

Jun 13, 2024 · Local governments have also introduced a series of policies to promote the construction of new type energy storage in conjunction with new energy power generation. In ...

### [Major renewable energy power base starts ...](#)

Oct 26, 2023 · Construction of the second phase of China's largest renewable energy power base in the country's Gobi Desert and other arid ...

### [Full text: China's Energy Transition . english.scio.gov.cn](#)

Aug 29, 2024 · Increasing the regulation capacity of the energy system. China has upgraded its coal-fired power units to have flexible load regulation capabilities. It has also built natural gas ...

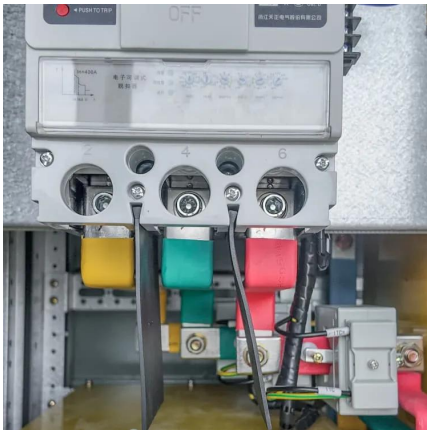

### [World's largest green, clean, renewable ...](#)

Mar 14, 2024 · The Yalong River Base has launched seven large hydropower stations and five new energy projects, with a total installed capacity of ...

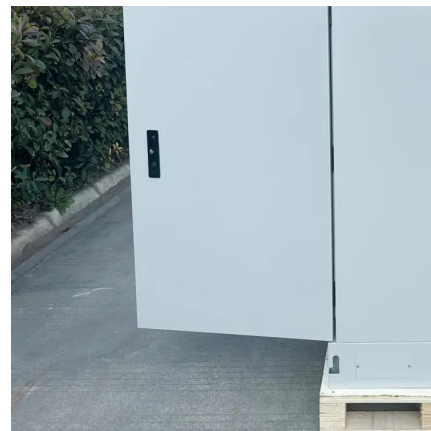

[Accelerated construction of new-energy ...](#)

Feb 17, 2025 · As a key focus of China's green energy transition during the 14th Five-Year Plan (2021-25) period, the construction of new-energy ...

[The situation and suggestions of the new energy power ...](#)

Nov 1, 2021 · The study first outlines concepts and basic features of the new energy power system, and then introduces three control and optimization methods of the new energy power ...

[Construction Begins on China's First Batch of ...](#)

Sep 4, 2023 · On August 24, the construction of the 4x660 MW unit expansion project at CHN Energy's Tengge Zhongwei Power Plan ...

CHN ENERGY:THE PATH TO A GREEN FUTURE ...

Longyuan power adopted the microcontroller processing technology to achieve accurate solar track and increase the efficiency of power ...

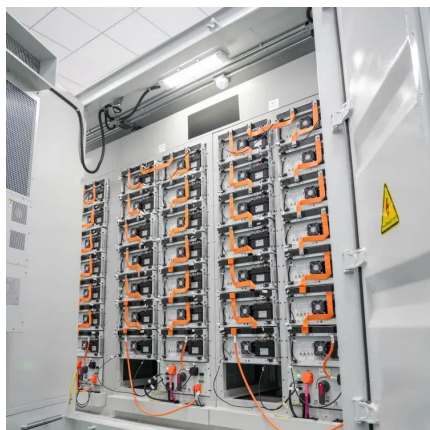

The Development of New Power System and Power ...

Apr 22, 2024 · The capacity tariff reflects the value of the auxiliary services provided by the pumped storage power station, such as frequency regulation, voltage regulation, system ...

China's Largest Grid-Forming Energy Storage Station ...

Apr 9, 2024 · This project marks the first successful application of grid-forming technology at the "Desert, Gobi and Barren Land"new energy base, pioneering a new application scenario for ...

Major renewable energy power base starts ...

2 days ago · Construction of the second phase of China's largest renewable energy power base in the country's Gobi Desert and other arid regions ...

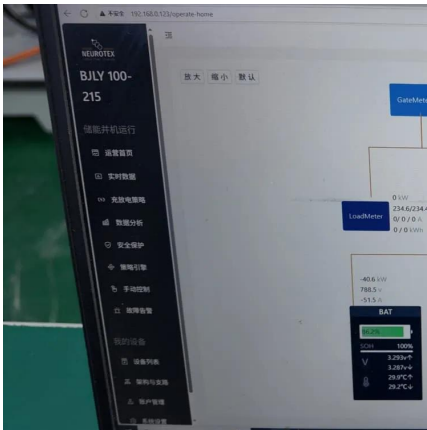

### The Construction of New Energy Bases Has Been Accelerated

Jun 27, 2025 · In the context of the global response to climate change and the pursuit of sustainable development, the new energy industry is booming at an unprecedented speed and ...

### **Construction Begins on China's First Batch of 'Shagehuang' New Energy**

Sep 4, 2023 · On August 24, the construction of the 4x660 MW unit expansion project at CHN Energy's Tenggeji Zhongwei Power Plan began, marking the commencement of China's first ...

### Projects at China's 1st 10 Million KW Multi ...

Dec 27, 2023 · The 1 million-kilowatt wind-solar power project in Qingyang, Northwest China's Gansu Province, started operation as the first 4.05 ...

### **Major renewable energy power base starts 2nd phase construction**

Oct 26, 2023 · Construction of the second phase of China's largest renewable energy power base in the country's Gobi Desert and other arid regions will further facilitate the country's shift from ...

[China's new energy base construction ...](#)

Aug 9, 2022 · The development of global renewable energy has accelerated and expanded, and the construction of China's renewable energy base ...

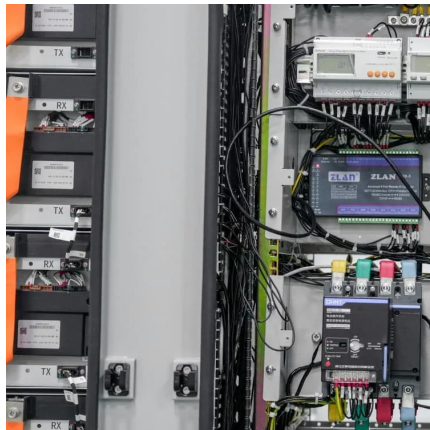

**Development direction, technical issues, and key construction ...**

Mar 1, 2025 · The implementation of green energy transformation, clean energy power replacement and supply, and the construction of the new power system are the primary driving ...

[Accelerated construction of new-energy bases in deserts ...](#)

Feb 17, 2025 · As a key focus of China's green energy transition during the 14th Five-Year Plan (2021-25) period, the construction of new-energy bases, particularly in sandy areas, rocky ...

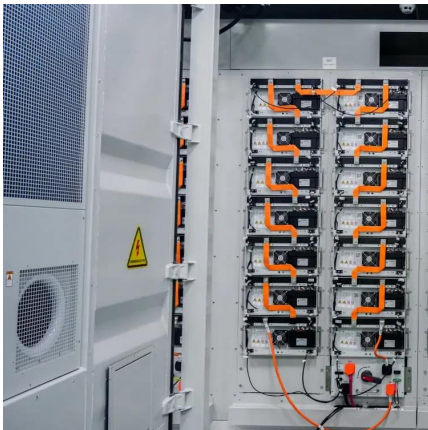

[Construction of new energy storage distributed power ...](#)

Hence, to support the high-quality power supply, this research explores the complementary characteristics of the clean energy base building different types of pumped storage power ...

### [China Advances Energy Storage Chain with Major New ...](#)

3 days ago · Leveraging Tancheng's industrial base in battery components and storage system integration, the project aims to enhance grid stability by mitigating the intermittency of wind ...

### [Projects at China's 1st 10 Million KW Multi-Energy ...](#)

Dec 27, 2023 · The 1 million-kilowatt wind-solar power project in Qingyang, Northwest China's Gansu Province, started operation as the first 4.05-megawatt wind turbine began to run on ...

### [China's new energy base construction accelerates--Seetao](#)

Aug 9, 2022 · The development of global renewable energy has accelerated and expanded, and the construction of China's renewable energy base has been fully launched. The reporter ...

### [New Energy Power Station Construction Project of Baicheng](#)

Mar 25, 2025 · 1.2 Contents and scale of project construction The project covers an area of 40000 square meters, mainly constructing a 100MW/200MWh lead-carbon energy storage power ...
