

Corrosion-resistant Namibian photovoltaic containers for wastewater treatment plants

Overview

Why did Namibia build a water recycling plant?

Additional water infrastructure was needed in order to meet water demand. Recognizing that wastewater is a valuable resource, Namibia decided to reuse it. They built the Goreangab Water Reclamation Plant, the first water recycling plant in the world to recycle municipal wastewater into drinking water, which is known as direct potable reuse (DPR).

What is Namibia doing with reused wastewater?

Your monthly source for news on the world's most precious resource. With cities around the world slow to embrace drinking reused wastewater, Namibia in southern Africa has been doing it successfully for more than 50 years.

Can a small PV wastewater treatment plant reduce energy consumption?

However, the energy consumption increases if the influences mentioned above are improved. The process is generally treated using packed towers . To obtain a high removal rate, it is necessary to enlarge the size of the equipment or increase the number of equipment . So, it is not applicable to small PV wastewater treatment plants.

Can a small PV wastewater treatment plant use Packed towers?

The process is generally treated using packed towers . To obtain a high removal rate, it is necessary to enlarge the size of the equipment or increase the number of equipment . So, it is not applicable to small PV wastewater treatment plants. Moreover, fouling on the surface of packed towers is a fatal problem .

Corrosion-resistant Namibian photovoltaic containers for wastewater

[Mining Total Water Treatment Solutions & Equipment](#)

Mobile, scalable and compact, Anticor's water, wastewater and desalination plants are easy to transport and commission on site, or redeploy to changing water sources and operations. ...

A Novel Approach to Integrating Photovoltaic Technology With Wastewater

Sep 25, 2023 · Abstract. The efficiency of solar photovoltaic (PV) modules has significantly grown over the past several years. As a result, these modules are getting cheaper. Not all solar PV ...

[Namibia's Embrace of Potable Water Reuse](#)

Dec 4, 2025 · The project includes an Aspiral(TM) S1 plant, tertiary treatment, ultrafiltration, reverse osmosis, advanced oxidation process, and ...

[Beat Corrosion in Wastewater Treatment Plants, Sentry ...](#)

Through improvements like corrosion-resistant coatings, improved welding integrity and technology upgrades, retrofit services can help plants maintain their original infrastructure, ...

[Top 10 Wastewater treatment plant Suppliers, ...](#)

Sep 24, 2025 · Take their flagship effluent treatment machine: designed to tackle the high salt and mineral content in Namibian groundwater, it uses a combination of biological treatment and ...

Assessment of the role of photovoltaic systems in reducing ...

Sep 6, 2023 · The wide variation in reported carbon footprints for wastewater treatment plants (WWTPs) across the literature reflects the diverse treatment technologies and operational ...

[Our solutions in Namibia](#)

Dec 5, 2025 · Our solutions in Namibia Create new resources to secure Windhoek's drinking water supply In Windhoek, Veolia has been managing the Goreangab wastewater recycling ...

A review on combined solar-membrane systems for wastewater treatment ...

Aug 29, 2025 · Africa's growing water stress and energy access challenges necessitate sustainable wastewater treatment solutions. This review critically examines three emerging ...

Research status of typical wastewater treatment technology ...

Nov 1, 2024 · The main treatment process for fluorine-rich PV wastewater is summarized as chemical precipitation, while biological treatment is primarily used for ammonia-rich and nitrate ...

[Beat Corrosion in Wastewater Treatment ...](#)

Through improvements like corrosion-resistant coatings, improved welding integrity and technology upgrades, retrofit services can help plants ...

Environmental and economic sustainability of the novel photovoltaic

May 1, 2025 · In conclusion, this study quantitatively evaluated the potential environmental impacts and economic benefits of a conventional treatment method and three novel resource ...

Namibia's Embrace of Potable Water Reuse, Fluence

Dec 4, 2025 · The project includes an Aspiral(TM) S1 plant, tertiary treatment, ultrafiltration, reverse osmosis, advanced oxidation process, and disinfection. With a wealth of experience in ...

Our solutions in Namibia

Dec 5, 2025 · Our solutions in Namibia Create new resources to secure Windhoek's drinking water supply In Windhoek, Veolia has been ...
