

Costa Rica New Energy solar Panel Manufacturer

Overview

Who sells solar panels in Costa Rica?

American firms have a strong presence in Costa Rica by selling their products through local distributors or joint ventures. The main competitors of U.S. businesses in the solar area in Costa Rica are Chinese brands. Most companies selling solar systems are local companies that assemble Asian solar panels with some U.S. made components.

Is solar power a new energy source in Costa Rica?

Like wind power, solar power is another newer energy source in the country. The first solar power projects in the country were established in 1978 by just a few researchers from public universities at the Solar Power Laboratory at the National University. During 2012, Costa Rica inaugurated the Miravalles Solar Plant next to the Miravalles Volcano.

What makes CR solar a good choice?

CR Solar energy solutions meet all required Costa Rica specifications and are 100% certified for connection to the National Grid. CR Solar uses micro-inverter technology for our solar panels which provides safety, efficiency and the flexibility to expand your system at anytime.

Does CR solar offer a cable trade-out program?

CR Solar even offers a cable trade-out program to make sure you're not left with some cables that are no longer the right length. CR Solar energy solutions meet all required Costa Rica specifications and are 100% certified for connection to the National Grid.
