

Croatia High Frequency Inverter Kit

Overview

Where can I buy a high-quality frequency inverter?

In the ST- Shop you can buy high-quality frequency inverters in the power range from 0.75kW to 1000kW. You will find different model series, which are suitable for different applications. Sourcetronic offers beside the proven products also product novelties, to which you can be advised by the expert.

What is included in a sine wave inverter kit?

The price includes - 2 igbts , 1 scr , heatsink , multiwinding transformer , 2 kits and capacitor. Being one of the trusted firms in the industry, we are highly engaged in providing a unique range of Sine Wave Inverter Kit. The offered kit features contemporary technology and absolute coordinates system which ensure reduced operational cost.

What features do frequency inverters have in common?

Here you can see the main features that our frequency inverters have in common: The inverters are usually suitable either for single-phase mains voltage of 230 V as well as for three-phase motor voltage of also 230 V or for three-phase mains voltage as well as motor voltage of 400 V.

How to use a 400 volt G3 inverter?

If you have a 400 Volt G3 inverter, you must use the terminals "R", "S" and "T" for the three phases. The neutral wire is not required. Switch on the power supply and the display will show you the number 50. This number stands for 50 Hertz. If everything works properly, you should disconnect the frequency converter from the mains again.
