

Do you need to bring an outdoor power bank when traveling

Overview

Can you bring a power bank on a plane?

The TSA allows both electronic device chargers and portable power banks. Chargers must be placed in carry-on bags, not checked luggage. Portable power banks must not exceed 100 watt-hours. Larger power banks between 100 and 160 watt-hours require airline approval. Chargers do not need to be removed from carry-on bags during screening.

Should you travel with a power bank?

Part of knowing how to travel properly with a power bank is understanding the rationale why airlines are cracking down on regulations. Norton says, “The main risk is thermal runaway, where a damaged or poorly made lithium-ion battery can overheat, swell, or even ignite.

Can you bring portable chargers & power banks in your Carry-On?

Studies show that easy access to chargers leads to a quicker and more organized travel experience (Smith, 2020). By adhering to these strategies, you can ensure that your chargers are safe and ready for use whenever needed, enhancing your travel experience. Yes, you can bring portable chargers and power banks in your carry-on.

Are power banks allowed in checked luggage?

Power banks are only allowed in carry-on bags, never in checked luggage. Up to 100Wh ($\approx 27,000\text{mAh}$) is permitted without airline approval. Power banks rated 101–160Wh require prior airline approval. The FAA and TSA ban uninstalled lithium-ion batteries in checked baggage.
