

Doha Watchman talks about EK solar container outdoor power

Overview

Will Qatar's new solar power project double its solar capacity?

PVTIME - QatarEnergy, the Qatari state-owned petroleum giant, has recently announced plans to develop solar power projects with a total capacity of 2GW in the Dukhan area, approximately 80km west of Doha. The new 2GW facility will more than double Qatar's installed PV capacity by 2030, increasing its PV solar capacity to approximately 4GW.

What is qatarenergy's new solar power mega project?

QatarEnergy has announced a groundbreaking initiative to significantly expand Qatar's solar energy capabilities. The company will construct a new solar power mega project in the Dukhan area, aiming to double the State of Qatar's solar energy production.

What is qatarenergy's Dukhan project?

The Dukhan project will join QatarEnergy's existing solar power assets, including the Al-Kharsaah solar plant with a capacity of 800 MW, and two upcoming projects in Ras Laffan and Mesaieed with a combined capacity of 875 MW.

How much solar power will Qatar have by 2030?

The new 2GW facility will more than double Qatar's installed PV capacity by 2030, increasing its PV solar capacity to approximately 4GW. It is expected that solar power will provide about 30% of the country's electricity by that time.
