

EMS Standards for Gambia Base Station Rooms

Overview

Should a fire and EMS Station serve as a model?

In each of these areas, the fire and EMS station should serve as the model for the community. As with any public or private facility, fire and emergency services stations are subject to theft, vandalism and violence. For staffed stations, these acts are most likely to occur when emergency response personnel are on a call.

Do EMS stations need a specific space?

Carve out specific spaces for specific uses Of course any EMS station needs adequate sleeping quarters, bathroom facilities and locker/changing rooms for both men and women – but consider what other activities happen at your station that you may not currently have a specific place for.

What makes a good EMS Station?

By Rachel Zoch, EMS1 BrandFocus Staff An EMS station needs to provide the comforts of home as well as the tools for work, from restful sleeping quarters to office space and equipment storage. Energy efficiency and safety should also be top of mind, whether you are making improvements to your current station or building a new facility.

What should a EMS Station include?

Another special space your station should include is a place for providers to exercise. Consider the specific workouts and equipment your providers are most likely to need and use. Where a firefighter might need to lift heavy weights, an EMS provider may be better served by a rowing machine, says Rodriguez.

Provide Spaces to Promote Rest with Individual Dorms, Safe Sleep Room
Look For Energy Efficiency When Choosing Appliances
Carve Out Specific Spaces For Specific Uses
Reconsider Your Alarms and Lighting, Especially at Night
Make Physical Fitness A Priority
Plan Ahead For Your Power Needs
Design Ambulance Bay Doors For Safety and Speed
Ventilate The Ambulance Bay
Build in Disinfection Capabilities
Provide Secure Drug Storage & Inventory Management
Traditionally, stations have had communal dormitories where everyone sleeps. Given different sleep schedules and habits - and snoring - those days are gone, and individual rooms are a must, says Rodriguez. This allows each crew member more control over their environment for better sleep. "One of the things that oftent...See more on [ems1 tdp-arch](#)
