

EU Outdoor Telecommunications Power Supply BESS 2025

Overview

How much capacity will Bess provide in 2025?

ready provide 55% of new capacity in 2025, is expected to further increase. By 2029, the share of grid-scale BESS will grow to 68% of annual additions, with the BTM segment providing less than a third of the capacity. By that year.

Will the Bess segment surpass the residential market in 2025?

the segment is expected to surpass the residential market already in 2025. The commercial and industrial (C&I) BESS segment persevered on its growth trajectory in 2024, but remained below its true potential. After nearly doubling for two consecutive years.

What is the Bess market?

The market development of C&I and small-scale batteries The BESS market is already experiencing a shift from a market for home owners to one that is increasingly dominated by large-scale solar and storage projects.

How big is Bess capacity in 2029?

of 2025 and just surpassing 250 GWh by 2029, corresponding to a CAGR of 34%. Focusing on the EU, total deployed BESS capacity in the Medium Scenario reaches 334 GWh in 2029. While this is an impressive growth from the 49.1 GWh operating in 2024, it remains significantly below the levels needed to meet increases
