

EU Solar System

Overview

Will the EU make solar energy a cornerstone of its future energy system?

With the solar energy strategy announced under REPowerEU, coupled with other legislative measures on renewable energies, the EU is taking the steps necessary to make solar energy one of the cornerstones of its future energy system. carbon-neutral EU, Directorate-General for Internal Policies, November 2021.

Why does the EU need a solar power system?

Solar photovoltaic now costs less than half as much of coal - another important reason it's become a major contributor to the EU's power supply. As well as the lower costs and emissions, expanding our solar capacity helps wean the EU off imported energy sources like gas, and strengthen our energy independence.

What is the EU solar energy strategy?

As part of the REPowerEU plan, in May 2022 the Commission adopted an EU solar energy strategy, which identifies remaining barriers and challenges in the solar energy sector and outlines initiatives to overcome them and accelerate the deployment of solar technologies.

What is Solarpower Europe?

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Get to know the SolarPower Europe team working to transform the European energy system. Get to know everything about solar power. Interested in joining SolarPower Europe?

EU Solar System

[Solar power's role in Europe's energy future](#)

Jun 25, 2025 · Solar energy has become one of Europe's fastest-growing and most promising sources of renewable power. One of their contributors, solar photovoltaic (PV) systems, now ...

[Solar power's role in Europe's energy future](#)

Jun 25, 2025 · Solar energy has become one of Europe's fastest-growing and most promising sources of renewable power. One of their contributors, ...

[EU Market Outlook for Solar Power: 2025 Mid ...](#)

Aug 19, 2025 · The EU solar sector continues its upward trajectory, with mid-2025 figures confirming robust growth. SolarPower Europe's latest ...

[EU Solar Market Outlook 2025-2030](#)

4 days ago · With decisive and coordinated action, Europe can still reverse the current negative trend, as solar and battery storage are

incredibly swift to deploy. SolarPower Europe stands ...

[Solar energy in the EU](#)

Oct 31, 2022 · SUMMARY The EU solar energy strategy proposed under the REPowerEU plan aims to make solar energy a cornerstone of the EU energy system. Boosting renewable ...

Home

5 days ago · Sunrock soars, winning the Gold European Solar Sustainability Award 2025
SolarPower Europe is the award-winning link between policymakers and the solar PV value ...

European Union

Apr 15, 2024 · National PV Policy According to SolarPower Europe, solar PV capacity has continued to increase, reaching an estimated 338 GWdc in 2024. 2024 has been the fourth ...

Solar energy

Solar energy technologies convert sunlight into energy, either as electricity (photovoltaics and concentrated solar power) or in the form of solar heat. Solar is the fastest growing energy ...

[EU Market Outlook for Solar Power 2025-2030](#)

4 days ago · With decisive and coordinated action, Europe can still reverse the current negative trend, as solar and battery storage are incredibly swift to deploy. SolarPower Europe stands ...

European Union

Apr 15, 2024 · National PV Policy According to SolarPower Europe, solar PV capacity has continued to increase, reaching an estimated 338 GWdc in ...

[5 things you should know about solar energy](#)

Jun 20, 2025 · When combined with energy storage, the contribution of solar energy to the resilience of the energy system becomes even more powerful. Batteries allow solar systems to ...

[EU Market Outlook for Solar Power: 2025 Mid-Year Analysis](#)

Aug 19, 2025 · The EU solar sector continues its upward trajectory, with mid-2025 figures confirming robust growth. SolarPower Europe's latest analysis highlights record installations, ...

[European Solar Charter](#)

Apr 15, 2024 · The European Solar Charter, signed on 15 April 2024, sets out a series of voluntary actions to be undertaken to support the EU photovoltaic sector.
