Overview

What is a solar roof tile?

The solar roof tile replaces conventional roof tiles and integrates seamlessly into the roof structure. Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure.

Who makes sunstyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.

What is etile solar roof?

Meet the eTile solar roof series - aesthetic photovoltaics integrated into the roofing. Polish manufacturer, premium solutions for the demanding.

How do solar roof tiles work?

Solar roof tiles from Schweizer are mounted directly on the roof battens, similar to traditional roof tiles. This eliminates the need for an additional substructure. The size format is equivalent to five flat tiles, further accelerating installation. The uniform visible surface also facilitates visually attractive roof integration.
