

Emergency Energy Storage Power Supply in Cebu Philippines

Overview

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

What is Central Visayas energy storage system?

Slated for commissioning in the first half of 2026, the facility is one of the first large-scale energy storage systems in Central Visayas. It aims to support rising power demand from industries and businesses in the area and enhance grid stability amid the energy transition.

Will EAUC be the first large-scale energy storage system in Central Visayas?

Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas. It will be developed through East Asia Utilities Corp. (EAUC), a wholly owned subsidiary of AboitizPower. Financial details have yet to be disclosed.

Why should we invest in energy storage in the Philippines?

“This energy storage project is not just another venture—it is a testament to our shared commitment to advancing clean energy in the Philippines. By integrating advanced storage technology, we are not only enhancing grid stability but also ensuring that renewable energy can be supplied reliably, day and night.
