What is an energy franchise?

Energy franchises keep homes running efficiently, which means greater cost savings for home owners. Franchising.com offers many different business opportunities in this exciting subcategory of home services.

Is energy storage a solution?

The energy storage industry has made great progress in developing technology, standards, and market policies and is poised to offer solutions to rapidly changing energy markets. Currently, energy storage as a solution is more inhibited by project financing than by the technology itself.

Should the energy storage industry evaluate policies and financing models?

The next consideration is for the energy storage industry to evaluate the policies and financing models that have allowed the renewable energy industry to expand over the last decade and to replicate what worked well and improve on the identified shortcomings.

What is a capex energy storage system?

In a CAPEX model, the customer purchases and owns the energy storage system outright. This means they pay the full cost upfront, take full control of the operation, and enjoy all the financial benefits over the system's lifetime — such as lower electricity bills, peak shaving savings, and revenue from grid services.
