

Energy storage power supply procurement in Milan Italy

Overview

When will Italy's new energy storage capacity procurement auctions take place?

Terna's thinking. The date is set. The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, Francesco Del Pizzo, has confirmed.

Will Italy deploy more storage capacity in 2024?

Italy is forecast to deploy more storage capacity than any other European nation in 2024 – the European Commission has approved €17.7bn of storage funding under 'state aid' rules, while the MACSE storage procurement mechanism is expected to be the catalyst for a storage surge in 2025.

Which European country has the most energy storage capacity in 2024?

Italy is arguably the most vibrant European energy storage market at present. It is forecast that Italy will deploy more energy storage capacity than any other European nation in 2024, reaching a total of 7.7GWh, which will equate to more than a third of the total storage capacity deployed in Europe this year (see chart below).

What is the electricity storage capacity procurement mechanism (MACSE)?

The Electricity Storage Capacity Procurement Mechanism (in Italian "Meccanismo di Approvvigionamento di Capacità di Stoccaggio Elettrico": MACSE) is a regulatory initiative aimed at fostering the growth of electricity storage capacity in Italy.
