

Energy storage projects under construction in Cuba

Overview

How many solar parks will Cuba build by 2025?

The Cuban government's plan is to install 55 solar parks similar to the one in Cotorro by 2025. The total capacity will be 1,200 MW. These are part of a broader project running until 2028, which aims to build 92 parks, with the goal of adding more than 2,000 MW to the National Electro-Energy System.

What is the first solar photovoltaic park in Havana?

HAVANA TIMES – On February 21, 2025, the first solar photovoltaic park was inaugurated, with a capacity of 21.8 MW. The project, located in Cotorro—on the outskirts of Havana—is part of the island's government's bet on solar energy to address the country's dire electricity situation.

What is the energy situation in Cuba?

The energy situation in Cuba is critical. The Cuban electrical system has suffered for years due to a lack of investment, aging infrastructure, and difficulties in obtaining fuel. First published in Spanish by El Toque and translated and posted in English by Havana Times.

How many parks in Cuba & Guantanamo?

Santiago de Cuba: 5 parks / 109 MW. The Las Guásimas park in Contramaestre is expected to start in May. Guantánamo: 2 parks / 43 MW. Energy and Mines Minister Vicente de la O Levy reported that, in addition to the openings in February, another six parks should be added by March 2025.
