

# **European Scalable Distributor of Foldable Containers**

## Overview

---

What is a foldable large container?

Foldable large containers (also called: pallet boxes) are large collapsible containers adapted to Standard pallet footprints. They can be manufactured from wood or plastic. As a combination of container and pallet, pallet boxes often have runners. Due to the runners, operators can easily handle the large containers with fork lifts and lift trucks.

What are plastic foldable large containers (FLCS)?

Plastic foldable large containers (FLCs) ORBIS plastic FLCs are an efficient and sustainable alternative to steel, cardboard or wooden packaging. The foldable industrial bins with Standard footprints are easy to implement along different points of the supply chain and can be adapted to customer preferences.

What is Orbis Europe bulkpak®?

The ORBIS Europe BulkPak® brand consists of foldable large containers made from plastic. In 1997, the product range was first brought to market in the US as shipping containers for components in automotive and industrial applications. Still today, our heavy-duty bins are successfully used all over the world in a variety of different industries.

Are Orbis foldable large containers sustainable?

ORBIS foldable large containers offer sustainability – across the entire life cycle. That starts with the production of our FLCs: We use recycled materials during the manufacturing process which leads to a reduction of CO2 emissions. Due to their longevity and durability, our large collapsible containers are suitable for green logistics.
