

Finland AC Inverter

Overview

Does Finland import solar equipment?

Generally speaking, Finland is a net-importer of solar equipment. Solar installers and other photovoltaic professionals mostly import equipment from Asian markets. Nevertheless, there is some module manufacturing capacity in Finland. Solarfeeds has got you covered if you need a reliable supplier that can meet your project needs.

Is Finland a good place to buy solar equipment?

If the answer is yes, you stand a chance of reaping big in Finland with a little determination and unrivaled expertise. Generally speaking, Finland is a net-importer of solar equipment. Solar installers and other photovoltaic professionals mostly import equipment from Asian markets.

Is solar a viable option in Finland?

Anybody can easily assume that solar is not a feasible option in Finland because of Northern Europe's climatic conditions. Surprisingly, the country is keen to develop its solar capacity albeit the less favorable climatic challenges. Over the last couple of years, the Finnish government has been working to build its renewable energy capacity.

What is the current state of Finland's solar market?

So, that is the current state of Finland's solar market?

Well, the latest statistics reveal that Finland had an installed solar capacity of 214 Megawatts by the end of 2019. Residential installations account for 45% of the cumulative installed capacity and the rest is distributed amongst commercial and industrial installations.
