

Gaborone Megawatt Solar

Overview

GABORONE, Aug. 13 (Xinhua) -- Botswana Power Corporation on Monday signed a power purchase agreement (PPA) with Sinotswana Green Energy, a consortium of Chinese and Botswana companies, to officially launch the southern African country's first 100 MW solar photovoltaic (PV) power station project. Will a 100 MW solar plant be built in Botswana?

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana. The project is expected to start generation by the end of 2025.

How much does a solar plant cost in Gaborone?

The solar plant, valued at US\$78.3 million (R1.4 billion), is set to be completed by the second quarter of 2026, according to Zhitong Finance. The contract signing took place on Monday in Jwaneng, which is a diamond mining town located 200 kilometers west of the capital, Gaborone.

When will Botswana's second solar power plant be completed?

The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026. Botswana has awarded a major contract to build a 100-megawatt solar power plant to a group of Chinese companies led by China Harbour Engineering Co.

How much does Botswana's solar project cost?

The project is a key development in Botswana's renewable energy sector, marking the country's second utility-scale solar facility. The contract which is valued at \$78.3 million includes partnerships with China Water and Electric Development Co. and local investors.
