

Georgia Energy Storage solar Project Price

Overview

How much does a solar system cost in Georgia?

The Residential Clean Energy Credit, formerly known as the federal investment tax credit (ITC), can reduce your solar panel system's cost by 30%. Your entire system, including all the equipment, labor, permitting, and sales tax, qualifies for the ITC. In Georgia, the average cost for a 5 kW solar panel system is around \$13,160.

Does Georgia have a solar market?

National Solar Capacity Ranking: 7th Data Current Through: Q1 2025
Georgia's solar and storage market has taken off in recent years, landing it a top spot in SEIA's national solar rankings. During the 2024 session, an industry-supported decommissioning bill was passed after much collaboration and effort.

How much does a 5 kW solar panel cost in Georgia?

In Georgia, the average cost for a 5 kW solar panel system is around \$13,160. Once you factor in the 30% credit, the cost of a solar panel system in Georgia comes down to \$9,212. When you file your taxes, you can claim this incentive as a credit towards your federal tax bill.
